New Comprehensive Plan Will Guide Township's Future

The Lancaster Township Supervisors have decided to adopt a new way of preparing the Township's Comprehensive Plan, which helps to chart the course of the Township's future land use, zoning, and other related policies.

This new planning process will incorporate strategic planning components so the Township can be more proactive in its decision making and more responsive in meeting the needs of Township residents.

Benefits of the process and the new "Strategic Comprehensive Plan" will include:

- Increased opportunities for resident involvement in the planning process.
- Goals for other than the traditional land development issues included in plans of this type.
- Ways to coordinate other key Township documents, such as zoning ordinances, so it will be easier for users to find and coordinate information.
- A practical road map to guide the decision-making process.
- Goals which will guide the Township's growth and services during the next ten to 15 years.

Components of the Strategic Comprehensive Plan include: a policy plan; land use/growth management plan; and an implementation plan to ensure that goals are acted upon and decisions are consistent with the goals.

Be on the lookout for "Information Gathering Sessions" that will be conducted this fall to solicit your input on a variety of Township issues. ■

**HILLSIDE PROJECT:
MORE THAN NEW ROADS**

Model of Cooperation Considered Mature Trees

Every year municipalities must determine road maintenance projects to undertake in the following fiscal year. In 1993, the decision was made to resurface Oak Lane, Hillside Drive, and Gordon Road from Wheatland Avenue to Hillside Drive.

When a road maintenance project is undertaken, the entire infrastructure of the road must be considered. If you were to ask a highway engineer for the three major causes of roadway deterioration, he would most likely respond "water, water, and water." Water entering a road bed will cause soft spots in the summer and freezing in the winter. Movement of the asphalt, which is a direct result of both of these conditions, will lead to a more rapid deterioration of the road surface and road bed and an increased cost for maintenance. This increased cost would eventually lead to a collapse of the entire system, because of a lack of funds available to complete the additional maintenance requirements.

Water enters the subsurface of roads through cracks in the asphalt and along the edges from deteriorated shoulders and curbs. Storm water drainage systems help to decrease the potential for damage by carrying water from the roadway to areas capable of handling the water with little chance of causing damage.

Because of deficiencies, both the curbs and storm water system had to be replaced as part of the Hillside Project.

When the engineering process began, the first item of concern was the preservation of the trees lining both

BEAUTIFUL TREES WERE PRESERVED WHILE NEW CURBS PREVENT WATER DAMAGE TO ROAD SURFACE.

VOTING DISTRICTS SEE CHANGES

In the very first issue of this newsletter, published in the fall of 1991, we printed a polling districts map. We are including the map in this issue again because there have been some changes. Voting districts 3, 8, and 9 used to be all one district!

Our State Representatives and the Districts they represent are: Jere W. Schuler (Voting District #4), Michael Sturla (Voting District #2), and Jere L. Strittmatter (Voting Districts #1, 3, 5, 6, 7, 8, and 9). ■

RECYCLING IS UP!

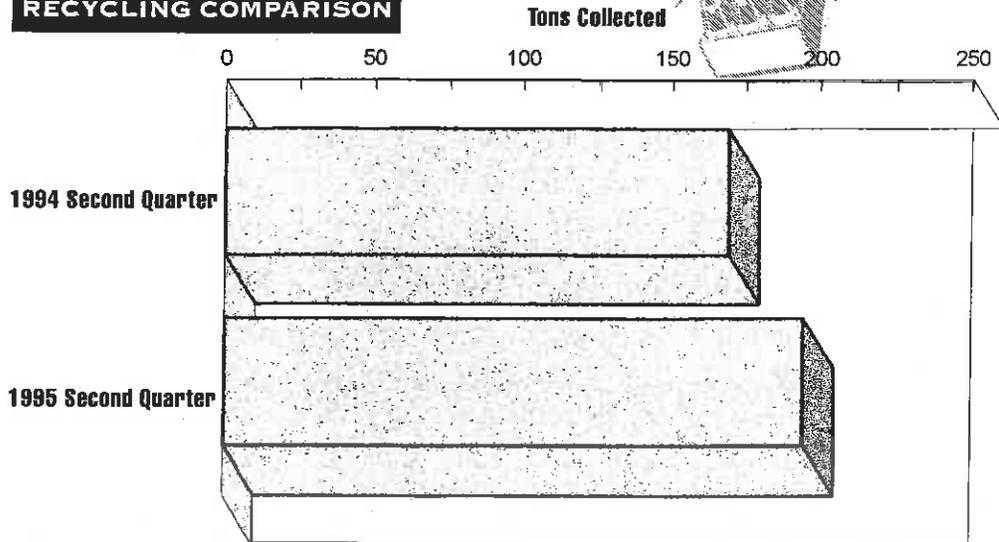

CHRISTMAS TREES

WILL BE COLLECTED FOR RECYCLING IN LANCASTER TOWNSHIP SATURDAY, JANUARY 20, 1996 DURING REGULAR COLLECTION HOURS. CHRISTMAS TREES WILL NOT BE COLLECTED ON REGULAR TRASH COLLECTION DAYS! PLEASE REMEMBER TO REMOVE ALL DECORATIONS AND STANDS. AND DO NOT PUT ARTIFICIAL TREES OUT FOR COLLECTION! THE MULCH CREATED FROM THESE TREES WILL BE USED TO LINE PARK PATHS IN LANCASTER TOWNSHIP.

Due to the fact that Lancaster Township has such a successful recycling program, you are paying less for your refuse/recycling. Beginning with the April 1995 billing, the Lancaster Township refuse/recycling fees have been reduced from \$60.00 to \$55.00 twice each year. Although recycling has been on a decline over the past few years, as indicated by the chart below, it now looks promising. Thank you and keep up the good work. Remember that recycling does pay. ■

RECYCLING COMPARISON

Large Appliance Collection

The next large appliance collection will occur on the first trash pick-up in December (Tuesday, the 5th or Wednesday, the 6th). All large appliances must be tagged with a blue tag. This can be purchased for \$12 at the Township office. Write your name and address on the back of the tag and attach it securely to the appliance at your curb. Large appliances include: washers, dryers, water heaters, refrigerators, freezers, air conditioners, riding mowers, etc.

Other items may only be put out on this day as well, but they require different types of tags. Small appliances such as dehumidifiers, push lawn mowers, etc. may be put out for collection with a red tag (\$4) and tires with a yellow tag.

Questions? Please call the Township office at 291-1213. ■

What Do I Do When ...? The Township office received many calls regarding yard waste created from the rash of severe storms that plagued our area over the summer. Green tags are for GRASS, LEAVES, and SOD only. Any twigs or small branches can be cut up into four-foot bundles and marked with a yellow tag. Anything more than 4 feet long or heavier than 30 pounds needs to have a red tag attached to it.

RECYCLING PLASTICS AND MAGAZINES BEGINS IN OCTOBER

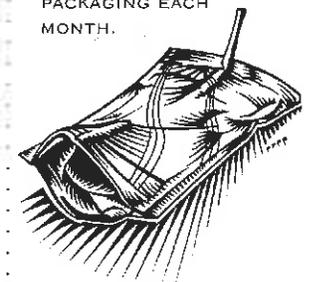

Beginning with the first trash/recycling collection in October, Lancaster Township will be recycling plastics and magazines. There's been a great deal of interest lately in recycling both types of items. Although the Township will incur additional expense, there will be no additional cost to the residents this year. The costs will be evaluated at budget time, as they are every year, and any increase or savings will be passed on at the next billing in April, 1996.

To recycle magazines, simply put them together with your newspapers in brown paper grocery bags, or bundle them. Include newspapers and magazines only—not junk mail or cardboard.

Plastic bottles bearing the numbers 1 and 2 are the only types of plastic being recycled. You'll find these numbers on the bottom of the plastic containers. They can go right in your recycling bin with the glass and cans you've been recycling. And they should be prepared the same way: rinse the plastic bottles clean, remove the lids and throw them in the trash, and there's no need to remove the labels. Examples of bottles with the numbers 1 and 2 include milk jugs, detergent bottles, and 2-liter soda bottles. It's also helpful to crush the plastic bottles, as they then take up less space in your recycling bin and are less likely to blow around on windy days. If you have any questions, please call the Township office. ■

Did you know?

THE AVERAGE AMERICAN THROWS OUT HIS OWN WEIGHT IN PACKAGING EACH MONTH.

Highway Superintendent: Leaves, Snow on the Agenda

As we approach the leaf collection season, your assistance is needed in keeping the storm inlets clear of leaves so that they may collect the water during rain events. If you see debris blocking an inlet, please remove the debris and place it to the downhill side of the inlet. The road crew cleans the inlets after storms, but the inlets may require cleaning before the crew arrives. Please call the Lancaster Township office if you see any serious problems involving inlets.

Here Come the Leaves

The 1995 leaf collection season is upon us. Collection will begin Monday, October 9 and continue through Friday, December 8.

- **Mondays**, Oct. 9-Dec. 4—all streets between Columbia and Marietta Avenues.
- **Tuesdays**, Oct. 10-Dec. 5—Hamilton Park area will follow the Tuesday morning street cleaning schedule plus Davis Drive and the 400 & 500 blocks of Atkins, Spencer and S. President Avenues. East end of the township will follow the Tuesday afternoon street cleaning schedule

plus City Mill Road, Conestoga Woods and Conestoga Boulevard.

- **Wednesdays**, Oct. 11-Dec. 6—Hamilton Park area will follow the Wednesday morning street cleaning schedule. East end will follow the Wednesday afternoon street cleaning schedule and finish any other East end pick ups if necessary.
- **Thursdays**, Oct. 12-Dec. 7—All streets on the north side of Marietta Avenue to Newton Road.
- **Fridays**, Oct. 13-Dec. 8—West side of Abbeyville Road, Bausman area, Hoover Road, Honeysuckle Lane and Bentley Lane area.

Due to factors such as traffic volume, a few areas of the Township are not collected on a weekly basis. Pick-up in these areas is coordinated through the township office. Residents can also drop off leaves at the maintenance facility during regular working hours. Please call the Township office to make arrangements.

The Supervisors urge residents not to put grass clippings or other debris out for collection as our DEP Permitted Compost Facility allows only leaves to be composted. Place leaves on the street adjacent to the curb and as close to the scheduled pick-up day as possible. We will attempt to maintain a weekly pick-up, but weather or other unforeseen factors may cause occasional biweekly pick-up.

Then the Snow

After the leaf collection has been completed, the trucks must be prepared for their next assignment, winter roadway maintenance. When the snow starts falling the plows will once again be clearing the roadways for your safe passage. Although the crew attempts to stay on the road surface itself, in areas without curbs it is sometimes impossible to determine exactly where the road ends and your lawn begins. The Township also has a right-of-way which extends beyond the paved surface for a distance which is typically five to ten feet. This allows the Township to properly maintain the roadway.

It is your responsibility to mark your property line to guard against potential damage caused by snow plows. In order to protect your lawn during

School District of Lancaster Updates

► Central Campus Expansion Project

The construction of McCaskey East High School is proceeding according to schedule. Portions of the ground floor walls, columns and precast concrete planks have been installed. Athletic equipment, including goals, portable bleachers, bases, and player benches were installed on the new athletic fields in July. Tours of the construction site are being offered upon request at 291-6106.

► Site-Based Reform

Site-based reform efforts continue to move ahead according to plan. This year all schools are in the process of developing their building site councils, which will include stakeholders from the professional/support staff, parents, and community. A set of parameters are in place which will assist school site councils with their decision-making. Also, a district-wide communications subcommittee will be meeting throughout the year to continue their work in improving all aspects of communication within the district and between the district and community.

► Budget

The Board of Directors approved the budget of \$80,511,018 in June.

► Board of Directors

The Board of School Directors has changed the format of its monthly meetings. The Board meets regularly on the third Tuesday and the two Thursdays preceding the third Tuesday of each month. The first Board meeting of the month (two Thursdays before the third Tuesday of the month) is held at 8:00 p.m. and is devoted to dealing with action items.

The second Board meeting (the Thursday before the third Tuesday of the month) is held at 7:00 p.m. and gives an opportunity for the board to dialogue with school communities and react to school progress reports. Beginning in October, 1995, this second meeting of the month will be held in one of the District schools.

The third Board meeting of the month (the third Tuesday of the month) is held at 7:30 p.m. and addresses the following:

- Board President's and Superintendent's reports
- Ceremonial functions
- Making decisions on those items carried over from the first meeting of the month
- Continuing with the discussion of Level I and Level II work initiated at the second meeting or if discussion of the topic was completed, initiating new Board work
- Approving the financial report
- A preview of the next month's Board work ■

DEPARTMENT REPORTS

winter storms, you should place reflective posts along your property near the paved surface of the roadway. Lancaster Township will not be placing property markers for you. Although we will do our best to avoid doing damage to your property, the Township will not be responsible for repairing any damage in the right-of-way. Please protect your property and our relationship by marking your property with reflectors.

Please drive safely and enjoy the fall weather. Thank you for helping to keep Lancaster Township a desirable place to live and visit. ■

Recreation Commission: Good-bye Summer, Hello Fall

The Lancaster Recreation Commission (LRC) is gearing up to offer the best selection of recreation and leisure activities ever!

Our newest addition is the Happy Hours Craft Club for older adults that meets once a month at a Happy Hours Center to complete a new creation. The Happy Hours Club, a wonderful establishment in itself for those ages 55 and over, always provides fun, informative, and meaningful activities for its members.

Our other clubs include the City Line Volleyball Club for kids ages 10-18 who want to learn volleyball skills and compete in local and regional tournaments. Another special program is Kids' Club for elementary students in grades 3-6. Beginning in October that group will meet once a week during

the school year for fun games, sports, and more!

There is a bounty of sports leagues and clinics for all ages available at the LRC. Boys and girls ages 6-14 at any level of skill can become involved in the Youth Basketball League to improve their skills and compete with other teams. Young men ages 15-18 can play ball in the Teen Basketball League from December to February. Kids ages 7-12 can learn basic marching and baton-handling techniques in the Baton Clinic whose participants will conclude the program by marching in the Jack Frost Parade. Volleyball enthusiasts of any performance level can improve their skills in the Adult Volleyball Clinic in preparation for competition in the Volleyball League.

And More

Other activities include a full schedule of youth dance classes in ballet, tap, and jazz, and an exciting line-up of family bus trips: to Williamsburg (November 4-5), King of Prussia (November 18), New York City at Christmas (December 9), and Phantom of the Opera on Broadway (March 23). For those who want to stay in great shape, the LRC has a selection of adult fitness classes on the schedule—Step-To-It and Aerobic Dance. For older adults, the Happy Hours Club would like to invite musically inclined members to play with the Lancaster Senior Orchestra, as well as invite them to a full agenda of interesting Lunch Brunches. The Happy Hours Chicken and Waffle Dinner is also a fun-filled

event you don't want to miss. That takes place October 11-12 at the LRC with a craft sale and bazaar.

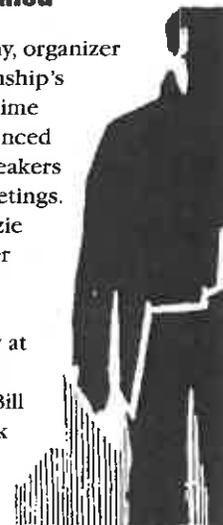

You are sure to find a terrific activity suited just for you at the Rec. Give us a call at 392-2115 for our latest Recreation Guide or for more information on any of our programs.

Correction from the Summer 1995 Newsletter: Foxwood is in Connecticut, not Atlantic City! ■

Neighborhood Crime Watch: Meetings Planned

Marianne Callaway, organizer of Lancaster Township's Neighborhood Crime Watch, has announced the topics and speakers for upcoming meetings. Edward J. McKenzie from the Lancaster Township Fire Department will discuss Fire Safety at the October 18 meeting. Officer Bill Gleason will speak about Holiday Safety Tips at the meeting held November 15.

Both meetings will be held in the meeting room at the Lancaster Township office, 1240 Maple Avenue, and will begin at 7:00 p.m. For further information on either meeting or on the Neighborhood Crime Watch program, call Marianne Callaway at 392-2763. ■

Road Tour

LANCASTER TOWNSHIP IS REQUIRED BY LAW TO INSPECT ITS ROADS TWICE EACH YEAR. IN PREPARATION FOR NEXT YEAR'S BUDGET, THE LANCASTER TOWNSHIP BOARD OF SUPERVISORS WILL CONDUCT ITS ANNUAL FALL ROAD TOUR SATURDAY, OCTOBER 7, 1995, TO DETERMINE WHICH ROADS ARE IN NEED OF REPAIR. RESIDENTS HAVING SPECIFIC CONCERNS SHOULD CALL THE TOWNSHIP OFFICE AT 291-1213 PRIOR TO THIS DATE.

It'll Be a Red Ribbon Week

RED RIBBON WEEK IS SCHEDULED FOR OCTOBER 21 THROUGH 29. THIS IS AN ANNUAL NATIONWIDE PUBLIC AWARENESS PROGRAM THAT GIVES COMMUNITIES AND INDIVIDUALS THE CHANCE TO SHOW THEIR SUPPORT FOR A DRUG-FREE AMERICA. DURING RED RIBBON WEEK, LOOK FOR THE RED RIBBON BANNER ON THE TOWNSHIP BUILDING, AND STOP BY THE OFFICE FOR A RED RIBBON TO WEAR. SUPPORT A DRUG-FREE AMERICA!

Hamilton Park Playground Needs Help

Hamilton Park Playground is a private, community-supported park. Since 1929 Hamilton Park Playground has provided a recreation area and has supported several organized events each year for residents, especially of the Hamilton Park area.

But now, because of the busy lifestyles that are so common in the '90s, Hamilton Park Playground is suffering a lack of community support. Currently only a handful of dedicated people are keeping the park an enjoyable place to visit and ensuring that organized events run smoothly. Why not consider joining this enthusiastic group?

Any amount of time you could contribute would be greatly appreciated. If you're unable to contribute

your time, please consider making a donation to: Hamilton Park Playground, P. O. Box 292, Bausman, PA 17504.

The following special events are planned for the Hamilton Park Playground:

- **October 28:** Halloween Parade/Party, 1:00 p.m.
 - **November 19:** Fall Clean-Up, 1:00 p.m.
- Call Rob Eckenrode at 299-4730 for more information. ■

Spend Sundays at the Library

The Lancaster County Library, 125 North Duke Street, is offering special Sunday afternoon programs for the whole family. Simply drop in—no registration is required for the Sunday programs. Plus, parking is free behind the library on Sundays.

Join us on Sunday, November 5, at

ANDREW ROBLIN: HE SINGS ... HE YODELS ... HE SHOUTS "WHOOPEE!"

2:30 p.m. when Andrew Roblin will share his own brand of fun. He sings ... he yodels ... and he shouts "Whoopie!" to the tune of the banjo, guitar, jaw harp, mandolin, and hammered dulcimer! All ages are invited to enjoy a hand-clapping, toe-tapping, knee-slapping good time.

Spend Sunday, December 3 at 2:30 p.m. with spectacular life-size puppets. Award-winning actress/puppeteer Kathleen Jacobs will present humorous storytelling and lively audience participation through three tales describing "Wise ... and Otherwise" behavior for all ages.

Several other programs are being presented this fall for children ages preschool through sixth grade. Call the Library Center for Youth at the Lancaster County Library for details at 394-2615, press 3. ■

requires a large amount of energy, which would increase the length of time required for the trees to fully recover from the trimming of the roots. In order not to put any additional strain on the trees, the fertilization will occur in the fall of 1996. The arborist said he has never seen such a tremendous effort put into assuring that trees received minimal impact by a construction project. He commended everyone involved for their determination in protecting the trees. Through their cooperative efforts, the infrastructure of the roadway is once again sound and the beauty of a tree-lined Lancaster Township neighborhood has been preserved. ■

Sue Abele Elected Parks Prez

Sue Abele, Lancaster Township resident and Executive Director of the Lancaster Recreation Commission, has recently been elected to a two-year term as president of the Pennsylvania Recreation and Parks Society, one of only a few women to hold that post in this organization's 60-year history. The Pennsylvania Recreation and Parks Society is a professional group with over 1,500 members statewide representing the fields of community recreation and parks, management of state and federal parks, recreational therapy, and commercial resorts. Congratulations, Sue!

HILLSIDE PROJECT

Continued from Page 1

sides of the roads. An arborist from Susquehanna Tree Surgeons was consulted for guidance to ensure that the trees were affected as little as possible by the construction. The recommendations included cutting the roots with sharp objects, sterilizing the tools prior to cutting, and installing 12-foot steel plates at the trees to minimize cutting of the roots.

Following these guidelines, the contractor used a chain saw and hand pruners sprayed with disinfectant when moving from one tree to the next. The sterilization was to eliminate the spread of disease from one tree to another. The engineer, Rettew Associates, designed a tree plate to match the design of the slant curb which was installed as part of the project. In several locations, the roadway was narrowed slightly to reduce infringement on the roots.

The great amount of snow during the winter of 1993-94 delayed the surveying required for the design of the project.

That delay caused a delay in the bidding, which produced a lack of interested bidders available to perform the work. As a result, the only bid received was almost twice the budgeted amount, and the project was delayed until 1995. This time the successful bidder was very close to the projected cost, and Flyway Excavating was awarded the contract. After several meetings among residents, the Board of Supervisors, the engineer, the contractor, and Lancaster Township staff, the project was finally begun in earnest the beginning of May.

Storm water facilities were upgraded in the area of Hillside and Gordon, curbing was installed and the roadway was reclaimed and resurfaced throughout the entire project area. Reclamation of the roadway allowed for the assurance of a solid sub-base and smooth finished crown on the road at a fraction of the cost of full depth reconstruction. Construction was completed the end of June.

As the final phase of the project, the trees will be fertilized. The arborist explained that absorbing fertilizer

CONESTOGA RIVER CORRIDOR BEING STUDIED

The Lancaster Inter-Municipal Committee (LIMC) is beginning work on a Conestoga River Corridor Management Study. The Study will make recommendations for developing greenways along sections of the Conestoga River and two of its major tributaries, the Little Conestoga Creek and the West Branch of the Little Conestoga Creek. The Study will be of particular interest to Lancaster Township because the sections of the Conestoga River and Little Conestoga Creek which are Lancaster Township boundaries will be included in the Study.

As used in the Study, the term *greenway* is defined as any kind of linear park or open space corridor. Greenways to be recommended by the Study may therefore be as diverse as bikeways, nature trails, or undeveloped wildlife habitats. Though the Study will focus on greenways adjacent to waterways, they may also lie along nearby roads, through parks, or elsewhere, when routes along waterways are not feasible.

One greenway site being discussed lies along the Little Conestoga Creek in the Maple Grove area. Lancaster Township owns the land along the east bank from Columbia Avenue to

Schoolhouse Road. Adjacent lands in East Hempfield and Manor Townships provide an excellent opportunity for an intermunicipal effort in greenway planning and development.

It is hoped that the greenways recommended by the Study will eventually become part of a greenway network throughout central Lancaster county which will serve a variety of recreation, transportation, and environmental preservation purposes.

**A TOWNSHIP-OWNED
AREA BEHIND MAPLE
GROVE IS ONE PROPOSED
GREENWAY SITE.**

Development of the Conestoga River Corridor Management Study will continue through 1996. Carl Kline, Lancaster Township's Highway Superintendent, is serving on the LIMC's Greenway and Park Advisory Board and the planning committee for the Study. The Study is being funded by grants from the Chesapeake Bay Commission and Pennsylvania's new Keystone program.

Anyone who would like to provide ideas for the Study may contact Carl Kline at the Lancaster Township office or John Ahlfeld, Executive Director of the Lancaster Inter-Municipal Committee, at P. O. Box 8347, Lancaster, PA 17604-8347, phone (717) 397-7313. ■

**IT IS HOPED THAT THE GREENWAYS RECOMMENDED BY THE STUDY
WILL EVENTUALLY BECOME PART OF A GREENWAY NETWORK
THROUGHOUT CENTRAL LANCASTER COUNTY.**

Tips for Trick-or-Treating

Trick-or-Treat Night will be held Tuesday, October 31, from 6:00-8:00 p.m. Please remember:

- No one over the age of 12 years may wear a mask in public.
- Accompany young children and carry a flashlight.
- Stay in your neighborhood and visit only the homes of people you know.
- Dress children in light-colored costumes; adding reflectors is recommended.
- Check all candy before allowing children to eat it.
- Watch out for traffic! Drivers, be extra alert!
- **HAVE FUN!!!** ■
